# Badminton Llama & Alpaca Mix

Today more and more people are keeping llamas and alpacas, so it is important to offer these animals a feed such as Badminton Llama & Alpaca Mix, which is designed specifically for them. Llamas and alpacas are camelids. This means that they are not true ruminants, but their stomach is made up of three compartments and they do ruminate.

## Features and Benefits

**Oil 3.5% Protein 16% Fibre 10.5%**

- Combines digestible fibre, high quality protein, vitamins and minerals to offset deficiencies in grazing.
- A light coating of molasses and oil is added to enhance the mix.
- Cereals and pulses are micronized before inclusion to improve nutrient uptake, digestibility and the performance of the diet.
- Fully traceable natural wholesome ingredients.

## Feeding Guide

- Feed sparingly, in conjunction with a good source of long fibre.
